

Degen Digest – 2025-06-29

TL;DR

Crypto markets are a rollercoaster this week. While some proclaim “WE ALL GONNA EAT!”, volatility reigns. \$REKT suffered another dump, proving its name true. Revolut’s fiat expansion offers on-ramps, but geopolitical “TOTAL WAR” fears are tanking portfolios. \$CITY’s integration with Nexa sparks hype, but “Wen Moon?” remains the question. Finally, @notthreadguy issues a stark warning: navigate the degen landscape wisely (“BONK OR BE BONKED!”) or risk being NGMI. Proceed with extreme caution.
